Response to Arguments

1. Applicant's arguments, see pages 6-8, filed 9-23-05, with respect to claims 1-21 (claim 8 having been cancelled) have been fully considered and are persuasive, in light of the amendments filed. The rejections of claims 1-7 and 9-21 have been withdrawn.
2. It should be noted that an interview was conducted between the Examiner and the Applicant's representative, on August 14, 2006 (note attached PTO-413B), wherein new prior art was discussed, with respect to claims 1-3, 6, 7, 10, 12-15 and 18-21. Amendments to claims 1 and 12 were agreed upon to avoid prior art rejections. The pertinent prior art is cited this office action, in paragraph 5.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jason Webb (reg.no. 55,714) on August 14, 2006.

The application has been amended as follows:

The claims have been amended as follows:

Claim 1 has been amended to read:

---1. (currently amended) A personal viewing system for enabling a person to view images of the person wearing an accessory, at a store, the system being comprised of:

a digital capturing device for capturing one or more images of the person wearing an accessory, wherein the captured images may be photographs or videos are digital still and/or video images;

a memory device for storing the images in a memory;

a display device for displaying the images, wherein the display is virtually sectioned into a primary and a secondary section for comparing a preferred image to a compare image; and

a command module for reviewing the images;

wherein the memory device automatically displays previously undisplayed images when the person rejects, through the command module, a displayed image.---

Claim 4 was cancelled.

Claim 12 has been amended to read:

---12. (currently amended) A method for enabling a person to view images of the person, at a store, the method comprising the steps of:

capturing one or more images of the person wearing an accessory, wherein the captured image or images may be a photograph or a video are digital still and/or video images;

storing the images in a memory device;
displaying the images on a screen, comprising a step of displaying
one of an undisplayed image stored in the memory device, after one of
the displayed images has been rejected; and
providing a command module to enable the person to review the images.---

Claim 16 is cancelled.

The dependence of claim 17, was changed from "claim 16" to read ---claim 12---, so
now reads:

---17. (amended) The method of claim ~~46~~ 12, wherein, when the images stored in
the memory device have been exhausted, the displayed images automatically enlarge
to fill the screen when additional displayed images are rejected. ---

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of a personal
viewing system and its method of using, having the claimed structure and claimed
limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please
particularly note the combination of claimed elements and claimed limitations, including

Art Unit: 2873

the amendments made to the two independent claims, claims 1 and 12. The prior art fails to provide the combination of claimed elements and method steps, respectively, including the memory details regarding the automatic displaying of images, as currently amended.

Therefore, in light of the Applicants' arguments and the approved amendments, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
